

RFP-2017-03

Single Space Parking Meters

Questions and Answers

Q. Referencing Section 5.5 of the RFP it states service is expected within a four hour period from when the call was placed?

A. The Albany Parking Authority is referring to if the system goes down; backoffice, system-wide, etc. We do not expect the company to send out a technician to fix a meter.

Q. How many single space meters do you have?

A. The Albany Parking Authority has roughly 750 single space meters City-wide. Currently we have 11 smart single space meters in a pilot program and are looking to expand that to 246 smart single space meters.

Q. Are all of the housings Duncan Model 95's?

A. Yes.
